Andhra Pradesh, India

SUMMARY

Healthcare Quality Patient Safety professional with 15+ years of experience in NABH CBAHI accreditation, KPI monitoring, clinical audits, patient safety, and hospital operations across India and Saudi Arabia. Proven expertise in leading quality initiatives, regulatory compliance, performance improvement, and data-driven healthcare management in tertiary care hospitals. Strong clinical nursing foundation combined with MBA in Hospital Healthcare Management, Lean Six Sigma certifications, JCI standard implementation and expertise in healthcare quality systems, audit readiness, and operational excellence.

PROFESSIONAL EXPERIENCE

Quality Manager

Sree Gokulam Medical College Hospital and Research Foundation – Quality Management Department

May 2025 – March 2026

Kerala, India

- Managed daily quality operations across all clinical and super-specialty departments for a massive 1,000-bedded teaching hospital.
- Led the hands-on preparation for NABH accreditation, running mock audits and conducting Root Cause Analysis (RCA) to fix clinical gaps.
- Driven hospital-wide committee actions (like Infection Control and Mortality Review), turning audit findings into practical, corrective workflows.
- Created simple, smart tracking tools that made it easier for busy departments to submit accurate data without reporting delays.
- Worked directly with doctors and nursing heads to fix operational bottlenecks and improve patient safety in high-volume wards.

Quality Management Institutional Excellence Directress

Thuriban General Hospital – Quality Management Department

Mar 2024 – May 2025

Al-Qunfudha, Saudi Arabia

- Developed and monitored quality KPIs aligned with national healthcare standards.
- Conducted data analysis to evaluate performance trends and improve patient safety outcomes.
- Led compliance monitoring for accreditation (CBAHI), audits, and regulatory requirements.
- Coordinated cross-departmental reporting systems for quality indicators.
- Supported leadership with data-driven insights for operational decision-making.
- Supervised and mentored staff ensuring professional growth and policy adherence.

IMPROVEMENT PROJECTS

- Discharge Against Medical Advice (DAMA) – improved monitoring and patient compliance tracking

Assistant Nursing Directress

Thuriban General Hospital – Nursing Department

📅 May 2023 – Mar 2024 📍 Al-Qunfudha, Saudi Arabia

- Maintained high standards of nursing care and staff performance.
- Oversaw integration of electronic health records and digital tools.
- Optimized nursing processes for operational efficiency.
- Ensured quality patient care through effective leadership.

Quality Management & Patient Safety Directress

Thuriban General Hospital – Patient Safety Dept.

📅 Nov 2017 – May 2023 📍 Al-Qunfudha, Saudi Arabia

- Provided leadership in implementing patient care and safety initiatives.
- Developed and monitored patient care plans and KPIs based on national standards.
- Contributed to strategic planning, hospital mission, and quality policies.
- Ensured licensing, accreditation compliance, and audit readiness.
- Analyzed clinical data to identify risks and improve patient safety outcomes.

Nurse Educator (HOD)

Thuriban General Hospital – Nursing Education Dept.

📅 Sept 2015 – Nov 2017 📍 Al-Qunfudha, Saudi Arabia

- **Strategic Training Architecture:** Designed and executed comprehensive annual and monthly training calendars, streamlining clinical education across all specialized nursing units.
- **Competency & Performance Governance:** Established rigorous framework for general, departmental, and clinical competency assessments alongside objective annual performance evaluations.
- **Advanced Clinical Training:** Spearheaded high-fidelity simulations, hands-on practices, and targeted bedside teaching to embed evidence-based nursing practices at the point of care.
- **Revenue & Continuing Education:** Organized accredited hybrid (online/offline) CMEs, specialized workshops, and digital learning courses, transforming the department into a revenue-generating center for the organization.
- **Life Support Certifications:** Partnered with accredited regional training teams and life support divisions to direct hospital-wide BLS, ACLS, and NRP certification programs.
- **Fiscal Responsibility:** Formulated and managed the departmental operational budget, optimizing resource allocation while scaling regional development collaborations.

Charge Nurse

Thuriban General Hospital – Surgical Wards

📅 Feb 2014 – Sept 2015 📍 Al-Qunfudha, Saudi Arabia

- Monitored patient condition and safety during surgery and recovery.
- Collaborated with surgeons and anesthesiologists for patient safety.

- Medication Errors – implemented monitoring system reducing reporting gaps
- Medical Record Documentation – improved audit compliance and documentation accuracy
- KPI Data Submission – enhanced data accuracy and inter-department reporting consistency
- Committee Conduction – streamlined coordination and reporting processes
- Improving Staffing and Work Pace – optimized operational efficiency through data insights
- Pressure Sores – reduced incidence through preventive monitoring systems
- Phlebitis Prevention – improved clinical compliance and tracking
- Patient Falls Prevention – strengthened risk monitoring and reporting
- Staff Knowledge in Operation Theatre (OT) – improved training effectiveness and compliance
- Staff Burnout Management (COVID-19) – introduced monitoring and support mechanisms

AWARDS & PRIZES
