

ABISHEK S

Radiotherapy Technologist

+91 7339525814 Chennai, India sabishek.klt@gmail.com

ABOUT ME

A motivated and detail-oriented Radiotherapy Technologist with a strong foundation in radiation therapy principles and hands-on clinical exposure. I am driven by a deep commitment to patient-centered care, precision, and safety in radiotherapy practices. With a disciplined approach and a continuous learning mindset, I strive to contribute meaningfully to multidisciplinary healthcare teams while upholding the highest standards of treatment accuracy and professional ethics. I am eager to grow within a progressive clinical environment where I can refine my skills, adapt to advanced technologies, and make a positive impact on patient outcomes.

EDUCATION

BACHELOR'S DEGREE IN RADIO THERAPY TECHNOLOGY

Apollo Institute of Hospital
Management And Allied Science
2021 - 2025

HIGHER SECONDARY - 83.20%

Chelammal Vidhyaashram CBSE
Higher Secondary School
2019-2021

SSLC - 67.6 %

Chelammal Vidhyaashram CBSE
Higher Secondary School
2018

TECHNICAL SKILL

- Hands-on experience in operating proton therapy systems, including accurate patient positioning, image matching, and treatment delivery with strict adherence to safety protocols.
- Proficient in operating Varian TrueBeam (SVC) for photon energies of 6 MV and 15 MV, and electron energies ranging from 6-12 MeV.
- Skilled in delivering advanced radiotherapy techniques including 3D-CRT, IMRT, RapidArc (VMAT), TBI, SBRT, and SRS.
- Experienced in handling and applying a wide range of patient immobilization devices (Orfit, Qfix) to ensure treatment precision and reproducibility.
- Competent in preparation and handling of customized electron shielding blocks for irregular field treatments.
- Well-versed in ARIA and MOSAIQ Oncology Information Systems for treatment delivery, patient data management, and clinical workflow coordination.
- Strong commitment to radiation safety and quality assurance, with adherence to AERB guidelines to maintain a safe clinical environment.

WORK EXPERIENCE

Internship And
Clinical Hands-On Experience

Proton Therapy - Apollo Proton Cancer Centre, Chennai

2025- 2026

Underwent structured clinical training in proton therapy delivery within a high-volume tertiary care center, along with practical experience in utilizing the MOSAIQ Oncology Information System. Developed practical understanding of proton treatment workflows, patient positioning, beam delivery principles, and safety practices unique to particle therapy, contributing to precise and patient-specific treatment execution.

Tomotherapy

Acquired clinical exposure to tomotherapy systems, gaining familiarity with helical radiotherapy techniques. Assisted in patient setup and daily verification processes, strengthening knowledge of adaptive and conformal treatment approaches.

Varian TrueBeam Linear Accelerators - SVC & STX

2022- 2024

Apollo Cancer Centre, Teynampet, Chennai.

Gained extensive hands-on clinical experience in the operation of Varian TrueBeam systems With Aria Oncology Systems during academic training. Actively assisted in patient setup, treatment delivery, and verification processes, with a strong focus on accuracy, image guidance, and adherence to radiation safety protocols. Developed a clear understanding of advanced radiotherapy workflows and precision-based treatment execution.

CyberKnife Robotic Radiosurgery-S7

2022-2024

Acquired clinical exposure to CyberKnife treatments, observing and assisting in image-guided, non-invasive radiosurgical procedures. Gained insight into patient immobilization, real-time tracking concepts, and the importance of sub-millimetric accuracy in high-precision radiotherapy.

Language - Fluent in English and Tamil, with basic working proficiency in Hindi, enabling effective communication in diverse clinical and professional environments.

ACHIEVEMENT

- Delivered an oral paper presentation at ARTT-TN 2023 on "An Overview of CyberKnife"
- Presented an oral paper at ARTT-TN CME 2025 on "Electron Beam Therapy in Superficial Tumors"
- Delivered an oral presentation at ARTT-TN 2025 on "Patient-Therapist Interaction and Advanced Feedback Systems".
